

Amana Tool Offers Same-Day Shipping Across North America

Products received in as little as one day from fully stocked East and West Coast fulfillment centers with 99.26% fill rate

Farmingdale, N.Y. – July 7, 2008 – Amana Tool, manufacturers of industrial-quality tungsten carbide woodworking tools, today announced immediate availability of same-day shipping on all product lines to customers throughout North America. Fulfillment centers at Amana's headquarters in Farmingdale, N.Y., and in El Cajon, Calif., are stocked with the company's entire line of industrial-quality router bits, saw blades, shaping cutters, boring bits, accessories and more to ensure that customers' immediate shipping needs are met in as little as one day.

"Same-day order fulfillment and shipping are an integral part of our commitment to providing the highest quality products and service to our customers," said Eitan Spiegel, president of Amana Tool. "State-of-the-art warehouses located on each coast give us the unique ability to ship our products in near real-time to reach virtually any customer in North America in a matter of days."

Amana offers one of the largest selections of industrial-quality router bits, saw blades and accessories for the woodworking industry under the Amana, Timberline and A.G.E. product lines. Orders for all three lines are received and processed in-house at the warehouse location closest to the order's origin. Regardless of size, orders are hand-picked and packed for maximum accuracy, with shipments reaching final destinations in as little as one day, depending on the shipping zone.

Amana router bits, saw blades, shaper cutters, boring bits, accessories and more are sold through authorized dealers throughout North America. For the location nearest you, visit www.amanatool.com.
